中原大學 Chung Yuan Christian University, Taiwan

Introduction

In 1953, a group of Christian educators and local gentries got together to establish an agricultural and engineering college in Taiwan to train science and engineering talent in the Christian spirit. After several name changes and long preparations, the Chung Yuan Christian College of Science and Engineering (CYCC) was established in October 1955 upon approval by the Ministry of Education. With “education through honest, diligent pursuit and practical experience” as the school’s motto, the College was composed of four departments, namely, the departments of physics, chemistry, chemical engineering, and civil engineering. Upgraded to the status of a full university, CYCC was renamed Chung Yuan Christian University (CYCU) on Aug. 1, 1980.

After nearly five decades, CYCU has developed with support from all members of the Board of Trustees, as well as immense contributions from past presidents and administrators Kuo Ke-tee, Hsieh Ming-shan, Han Wei, Yuan Ta-nien, Yin Shiu-hau, and Chang Kwang-cheng, who represented stages in CYCU creation, foundation, growth, steadfastness, and expansion. On Aug. 1, 2000, Dr. Hsiung Shen-kan became the seventh CYCU president who will carry on and develop the school tradition. CYCU currently has five colleges: College of Physics, College of Engineering, College of Commerce, College of Design, and College of Humanities and Education; 24 departments, 22 master’s programs, and 11 Ph.D. programs. CYCU has more than 70,000 alumni who are nation builders during times of progress.

With a vision for the future, CYCU has established a unique competitive advantage by adhering to its educational philosophy and mission; “Knowledge Economy,” “Care and Guidance,” and “Lifetime Learning” are the University’s development objectives, while holistic education and biotechnology research are the focus. As the University grows in reputation, the Ministry of Education has on several occasions evaluated and rated CYCU as the best private comprehensive university. CYCU is unwavering in its promotion of higher education; it aims to be an integrated university that is known and recognized worldwide for its “good judgment, vivacity, values, integrity, prestige, and love,” the qualities that exemplify Taiwan.
